

# BARENKALA GURU CHARAN

📍 Hyderabad, Telangana | ✉ [guru73422@gmail.com](mailto:guru73422@gmail.com) | ☎ +91-6303873422 | 🔗 [LinkedIn](#) | 🐙 [GitHub](#) |

## TECHNICAL SKILLS

---

- **Programming Languages:** JavaScript, Python, SQL, HTML, CSS
- **Frontend Development:** React.js, Tailwind CSS, Bootstrap, Flexbox, Grid
- **Backend Development:** Node.js, Express.js, REST APIs
- **Databases:** MongoDB, MySQL
- **Tools & Technologies:** Git, GitHub, Postman, Microsoft Office (Word, Excel, PowerPoint)

## INTERNSHIP AND TRAININGS

---

- MERN Full Stack Development Course
- Python Programming Certification – Value Laden
- Internship in Data Science – Value Laden

## PROJECTS

---

**Movie Web App** | MERN Stack (MongoDB, Express.js, React.js, Node.js), Vite, React Router DOM, JWT Authentication, API Integration, CSS, JavaScript | [Deployed Live](#) | [Backend Live](#) | [GitHub](#)

- Developed a MERN-based full-stack movie website with secure user authentication (JWT) and MongoDB integration.
- Implemented MVC architecture for better scalability and maintainability.
- Features include seamless navigation (React Router DOM), movie listings, trailer integration, search functionality, and a playlist feature.
- Backend deployed on Render, fetching movie data dynamically from MongoDB, ensuring real-time updates.
- User data is securely stored in the database with hashed passwords.
- Thoroughly tested using Postman to ensure smooth API functionality.

**Makeup Products Website** | *HTML, CSS, Bootstrap, JavaScript, Local Storage* | [Live](#) | [GitHub](#) |

- Designed a responsive e-commerce platform for beauty products using HTML, CSS, Bootstrap, and JavaScript.
- Implemented dynamic product cards, search functionality, and a custom form for adding products.
- Utilized local storage for persistent data storage.
- Enhanced user experience with an intuitive interface and visually appealing design.

**URL Link Shortener UI** | HTML, CSS | [Live](#) | [GitHub](#) |

- Designed and developed a clean, responsive, and user-friendly front-end for a URL shortener.
- Implemented an intuitive input form for shortening long URLs.
- Ensured cross-device compatibility with a responsive layout.
- Prioritized simplicity and efficiency for a smooth and accessible user experience.
